

MAINTENANCE

ORBILOC SERVICE KIT (#170)

Orbiloc Service Kit contains a Service Tool, a battery pack and an o-ring (rubber seal) to maintain the light.

016 ORBILOC - THE SAFETY LIGHT

1. Rinse the light under running water.¹

2. Use the Service Tool² to unscrew the light.

3. Remove the old battery pack and dispose of it correctly.

4. Insert a new battery pack in the cap.

5. Remove the old o-ring and dispose of it correctly.

6. Clean the o-ring groove with a cotton bud or tissue.

7. Place the o-ring back in its groove.

8. Use the Service Tool to screw the light back together.

¹ **Please note:** The Safety Light must not be opened while under water.

² The Service Tool is included in all Orbiloc Safety Lights produced from 2020 and all Service Kits produced from 2019.
